

ARNING CANOPIES AND AWNINGS

Arning is the trusted name in Canopy construction

Arning canopies are custom tailored to suit any application. They are designed to give your customers protection from the elements and provide a great visual first impression of your business. Well-engineered and well-built, our canopies will hold up to the elements, providing comforting shelter to cars, customers and pedestrians in both private and public facilities.

For over 40 years, Arning has been an industry leader and innovator in the canopy industry. We specialize in all sorts of canopies:

We've worked with scores of customers over the year, providing them quality custom canopies and awnings.

- **Fuel Service Canopies**

We specialize in fuel service canopy innovation.

- **Drive-Thru Canopy systems**

Single or multi-lane, free-standing or attached, we have done it all.

- **Entrance Canopies and Walkway covers**

Protect your customers while you enhance your curb appeal.

ARNING
ONE COMPANY | ONE SOLUTION

MODULAR BUILDING CONSTRUCTION

MODULAR BENEFITS

Modular construction makes it possible for your next building to be constructed in a controlled environment, then shipped directly to the job site. The design can be standardized allowing for consistency across multiple projects simultaneously.

- Less material waste
- Reduced construction schedule
- Elimination of delays due to weather
- Operational 30-50% sooner than conventional construction
- Less community impact during construction
- Reduce field labor costs
- Safer construction overall
- Limitless design possibilities
